Message  
from the  
Managers

Summer has arrived in the Pines! Thank you to all our residents who are keeping their lots well mowed and taking the time to care for attractive landscaping!

Once again thank you to everyone for socially distancing.

We appreciate all your efforts to protect our Community.

### COVID 19 UPDATE

For local info, call 211 or go to <https://www.brevardfl.gov/emergency-event/status-reports>

As of this writing, there have been over **4 million Cases** and almost **150,000 deaths** in America. Help save America by preventing more infections!

It is still **VERY** important to socially distance by at least six feet. Please wear a mask. If we each wear a mask, it will protect others from our germs. Frequently washing hands for 20 seconds remains critical. Keep hands away from faces. Please stay home if you feel sick. Please call your doctor if you have symptoms.

Be sure that your mask covers your mouth and your nose. Otherwise, when you sneeze or cough, your germs are spread. You could be sick and not know it!

There are currently 23 vaccines in human trials around the globe. Five steps needed after developing a vaccine:

- 1) Preclinical Testing: Vaccine is given to animals like mice or monkeys.
- 2) Phase 1 Safety Trials: Vaccine is given to a small number of people to test safety & dosage, and to see if the vaccine stimulates the immune system.
- 3) Phase 2 Expanded Trials: Vaccine is given to hundreds of people split into groups, like the elderly or children, to see if the vaccine acts differently in them, and also further tests its safety and ability.
- 4) Phase 3 Efficacy Trials: Vaccine is given to thousands of people. Also, a placebo is given to thousands. Those vaccinated are compared to those with only a placebo.
- 5) Approval Step: Approval is based on trial results.

After approval, vaccines must be manufactured, then distributed. It's hoped that a vaccine can be distributed by early 2021.

### New Office Procedures Beginning in August

We have just built a floor to ceiling acrylic divider in the office. Residents can now enter the office and resume visual contact with Rhonda.

1. Only one party is allowed in the office at a time. Please be brief.
2. Masks are required. After talking, one's germs remain in the air from 10 minutes to 3 hours.
3. "No maskers" are not allowed inside of the office. Instead, contact Rhonda via phone.
4. Please use hand sanitizer upon entering.
5. After entering, please lock the glass door to prevent another party from entering.
6. Please wait outside if you see that someone has already entered.

**RV COVID 19 Policy**

WP will still greet RVs and help with the RV parking, keeping at least 6 feet away at all times. RV's are required to stay 6 feet away from all other persons while on WP property, and are encouraged to wear masks.

Protect Your Neighbors!  
Please wear a mask!  
You could be sick &  
not know it!

Please remember, all lot rents are due on the 1<sup>st</sup> of each month. After the 10<sup>th</sup> of each month, a late fee will be applied.

Hello!

Would anyone like to volunteer to deliver the WP newsletters? Please call Rhonda if you would like to help!

A big Whispering Pines  
Welcome

To our newest residents!  
Robert & Linda Taylor  
Of 4945 Clover Lane.

Whispering Pines Residents!  
Now is the time for bush trimming, clearing all roofs, sheds, decks, and grounds of all pine needles, leaves, and debris. Besides looking better, this will protect your roof. It is also important that lawn clippings and pine needles from your lots do not collect in our streets. Please clean them up immediately after doing lawn care, which includes your residential lawn care providers also.

Thank You!

For this Labor Day,  
a special thank you  
to our essential workers  
who put their lives on the
